# ChatGPT Setup Checklist

1. Settings reviewed
2. Personalization completed
3. Preferred name and occupation added
4. Communication preferences added
5. Memory reviewed
6. Voice tested
7. First Project created
8. Basic knowledge file uploaded
9. Available Apps reviewed
10. Permission boundaries understood
11. Privacy rules understood
12. First reusable prompt saved

## Privacy reminder

---

Do not place passwords, Social Security numbers, full unredacted credit reports, taxpayer data, bank information, or other sensitive client information into ordinary AI chats.

# ChatGPT Setup and Personalization Student Handout

## Course checklist

---

1. Configure settings and personalization
2. Review memory
3. Test Voice
4. Create the first Project
5. Upload a basic knowledge file
6. Review available Apps and permissions
7. Understand privacy boundaries
8. Save one reusable prompt

## Important boundaries

---

1. Do not place passwords or sensitive client information in ordinary AI chats
2. Available features vary by account, plan, platform, and workspace

## Fast prompt index

---

1. Personalization interview
2. Memory example
3. Voice brain dump
4. Starter Project instruction
5. Create a simple About Me file
6. Email review example
7. Calendar preparation example
8. Workspace review

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Prompting for Real Estate Student Handout

## Course checklist

---

1. Give context
2. State the goal
3. Name the audience
4. Add only the instructions that matter
5. Define the output
6. Ask AI to interview you when information is missing
7. Research current facts before creating
8. Turn successful workflows into reusable prompts

## Important boundaries

---

1. Do not accept the first answer just because it sounds polished
2. Do not treat confident AI language as verified fact

## Fast prompt index

---

1. Deliberately weak prompt
2. Improved prompt
3. Five part listing marketing example
4. Listing appointment coach
5. Content strategist
6. Expired listing roleplay
7. Analyze examples
8. Use the pattern
9. Less corporate
10. Better hooks
11. Shorten

12. Remove AI language
13. More direct
14. Different versions
15. Listing campaign interview
16. Business strategy interview
17. Prompt builder
18. Step one
19. Step two
20. Step three
21. Step four
22. Step five
23. Research first
24. Create from verified information
25. Reusable prompt creator

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Real Estate Prompting Cheat Sheet

## Five part formula

---

1. Context
2. Goal
3. Audience
4. Instructions
5. Output

## Improve the answer

---

### **COPY THIS PROMPT**

This is too generic.

Ask me three questions that would give you enough context to make it specific to me.

## Make it sound human

---

### **COPY THIS PROMPT**

Rewrite this in conversational language.

Remove corporate language, clichés and generic AI phrases.

Keep the meaning.

## Shorten

---

### **COPY THIS PROMPT**

Cut this by 40 percent.

Keep the strongest ideas.

Do not add anything new.

## Better hooks

---

**COPY THIS PROMPT**

Do not rewrite the content.

Give me five completely different opening hooks.

Avoid clickbait.

## Interview me

---

**COPY THIS PROMPT**

Do not answer yet.

Interview me one question at a time until you have enough information to give me a useful answer.

## Challenge me

---

**COPY THIS PROMPT**

Don't automatically agree with me.

Look for weaknesses in my thinking.

Tell me what I may be missing.

## Verify

---

**COPY THIS PROMPT**

Research this before answering.

Use current reliable sources.

Separate verified facts from assumptions and opinions.

## Reusable prompt

---

**COPY THIS PROMPT**

Turn the workflow we just completed into a reusable prompt.

Use placeholders for information that will change next time.

# Build Your Realtor AI Twin Checklist

1. Persona interview complete
2. `REALTOR_PERSONA.md` created
3. Local Expert interview complete
4. `LOCAL_EXPERT_KNOWLEDGE.md` created
5. Story Bank interview complete
6. `REALTOR_STORY_BANK.md` created
7. Content interview complete
8. `CONTENT_DNA.md` created
9. `LEGENDS_AI_ASSISTANTS.md` added
10. Every direct assistant URL added
11. `MORTGAGE_PARTNER.md` added
12. AI Router configured
13. `AI_COMMAND_CENTER.md` created
14. Identity test passed
15. Voice test passed
16. Content fit test passed
17. Tool routing test passed
18. Mortgage routing test passed
19. Missing information identified
20. Portable Twin folder saved

# Build Your Realtor AI Twin Student Handout

## Course checklist

---

1. Complete the Persona interview
2. Create REALTOR\_PERSONA.md
3. Create LOCAL\_EXPERT\_KNOWLEDGE.md
4. Create REALTOR\_STORY\_BANK.md
5. Create CONTENT\_DNA.md
6. Add LEGENDS\_AI\_ASSISTANTS.md
7. Add MORTGAGE\_PARTNER.md
8. Create AI\_COMMAND\_CENTER.md
9. Test the Twin
10. Save the portable folder

## Important boundaries

---

1. Never invent stories, experience, local facts, credentials, or contact information
2. Update missing GPT URLs before giving the assistant directory to students

## Fast prompt index

---

1. Master Twin interview
2. Generate the Persona
3. Local Expert interview
4. Story Bank interview
5. Content interview
6. Directory instruction
7. Mortgage partner instruction
8. Router instruction
9. Router demonstration

- 10. Command Center creator
- 11. Identity test
- 12. Content fit test
- 13. Voice test
- 14. Knowledge gap test
- 15. Tool routing test
- 16. Mortgage routing test
- 17. Portable package README

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Real Estate AI Marketing Cheat Sheet

Use the complete copy ready prompts in the Real Estate Marketing Project.

## Core workflows

---

1. Build the content strategy
2. Create a thirty day calendar
3. Write educational, personal, and opinion posts
4. Create short Reels
5. Reactivate past clients
6. Reactivate old leads
7. Draft newsletters
8. Create hyperlocal content
9. Build listing campaigns
10. Build open house campaigns
11. Maintain content history
12. Repurpose one idea across formats

## Content rule

---

Before drafting, review recent content and avoid repeated hooks, stories, topics, calls to action, and mortgage heavy output.

# Real Estate Marketing Pro Student Handout

## Course checklist

---

1. Build a realistic content strategy
2. Create a thirty day calendar
3. Mix professional, local, personal, and story content
4. Use the Story Bank only for approved stories
5. Create Reels in natural spoken language
6. Build database reactivation and newsletter campaigns
7. Maintain CONTENT\_HISTORY.md
8. Check recent content before drafting

## Important boundaries

---

1. Do not make every post a sales pitch
2. Do not repeat recent hooks or stories
3. Do not force mortgage references into unrelated content

## Fast prompt index

---

1. Content strategy
2. Thirty day plan
3. Educational post
4. Personal post
5. Opinion topic selection
6. Opinion post
7. Educational Reel
8. Local Reel ideas
9. Story Reel
10. Past client campaign

11. Dead lead reactivation
12. Newsletter planning
13. Newsletter creation
14. Hyperlocal ideas
15. Local business feature
16. Listing strategy
17. Complete listing campaign
18. Open house plan
19. Create the content log
20. Content history review
21. Repurpose one idea
22. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# AI Listing Visual Checklist

1. Property information uploaded
2. Original photos preserved
3. AI property analysis completed
4. Photography shot list created
5. Virtual staging opportunities identified
6. Staging completed where appropriate
7. Just Listed graphic created
8. Open House graphic created
9. Story graphics created
10. Reel plan created
11. Feature graphics created
12. Visual accuracy reviewed
13. MLS and brokerage requirements checked
14. Final assets organized

## Accuracy rule

---

Do not invent property features or change architecture, room size, permanent materials, permanent defects, or window views.

### IMPORTANT

Follow your MLS, brokerage, state, advertising, and platform rules for edited or virtually staged images.

# Listing Marketing and Visuals Student Handout

## Course checklist

---

1. Analyze the listing before creating
2. Preserve verified property information
3. Create a photo strategy
4. Use the correct Legends assistant
5. Build listing graphics and Story assets
6. Create a Reel plan
7. Build feature graphics
8. Review every visual for accuracy

## Important boundaries

---

1. Never invent property features
2. Never misrepresent architecture, condition, size, or views
3. Follow current MLS, brokerage, advertising, and platform rules

## Fast prompt index

---

1. Listing analysis
2. Photography shot list
3. Router test
4. Master staging prompt
5. Style comparison
6. Declutter
7. Furniture removal
8. Just Listed graphic prompt
9. Open House graphic prompt

- 10. Story slides
- 11. Property Reel plan
- 12. Feature series
- 13. Engagement ideas
- 14. Visual accuracy instruction
- 15. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

### IMPORTANT

Follow your MLS, brokerage, state, advertising, and platform rules for edited or virtually staged images.

# Virtual Staging Cheat Sheet

## Four rules

---

1. Preserve the property.
2. Change removable items only.
3. Never overwrite the original image.
4. Disclose virtual staging when required.

## Core workflows

---

1. Stage a living room
2. Stage a bedroom
3. Stage a dining room
4. Stage a home office
5. Remove furniture
6. Declutter
7. Stage outdoor space
8. Compare design styles
9. Fix architecture changes
10. Fix furniture scale
11. Create a complete listing staging plan
12. Create a before and after graphic

Use the full prompts inside the Virtual Staging Project.

### IMPORTANT

Follow your MLS, brokerage, state, advertising, and platform rules for edited or virtually staged images.

# Virtual Staging Studio Student Handout

## Course checklist

---

1. Preserve the actual property
2. Change removable furniture and decor only
3. Maintain room dimensions and camera angle
4. Use realistic scale
5. Create consistent staging across a listing
6. Fix architecture errors before approval
7. Save original images
8. Disclose virtual staging when required

## Important boundaries

---

1. Never overwrite original photos
2. Never add permanent features that do not exist
3. Never remove permanent defects to make the property more attractive

## Fast prompt index

---

1. Master preservation prompt
2. Living room
3. Bedroom
4. Dining room
5. Home office
6. Three styles
7. Remove furniture
8. Declutter
9. Outdoor living area
10. Restore architecture

11. Fix furniture scale
12. Fix malformed objects
13. Vacant room routing
14. Furniture replacement routing
15. Accuracy review
16. Whole property staging plan
17. Before and after graphic
18. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

### IMPORTANT

Follow your MLS, brokerage, state, advertising, and platform rules for edited or virtually staged images.

# Realtor Coach Weekly Scorecard

## Goals

---

Annual gross commission income goal:

Annual transaction goal:

Monthly transaction goal:

Weekly conversation goal:

Weekly appointment goal:

## Actual activity

---

Conversations:

New leads:

Follow ups:

Appointments set:

Appointments held:

Listing appointments:

Buyer consultations:

Agreements signed:

Contracts written:

Contracts accepted:

Closings:

Past client contacts:

Referral partner conversations:

Prospecting hours:

Administrative hours:

## Coach questions

---

1. Did the activity support the goal?
2. Which leading indicator missed the target?
3. What produced the best result?
4. What did I avoid?
5. What should I stop?
6. What should I do more of?
7. What are the three priorities next week?

Use the prompt:

**Coach me from the numbers.**

# Realtor Coach and Sales Roleplay Student Handout

## Course checklist

---

1. Build the plan from actual numbers
2. Reverse engineer the revenue goal
3. Focus on leading indicators
4. Time block revenue activity first
5. Review performance weekly
6. Make the Coach push back
7. Practice difficult conversations
8. Score the roleplay

## Important boundaries

---

1. Do not let the Coach become a cheerleader
2. Do not create impossible schedules
3. Do not replace prospecting with productive looking busy work

## Fast prompt index

---

1. Coach operating rule
2. Business plan interview
3. Reverse engineer the plan
4. Daily plan and time blocks
5. Weekly review
6. Listing appointment preparation
7. Universal sales roleplay
8. Evaluate a new strategy
9. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# AI CMA and Pricing Cheat Sheet

1. Build the Subject Property Profile
2. Rank the comps
3. Identify outliers
4. Analyze price per square foot without relying on it alone
5. Separate sold, pending, active, expired, and withdrawn properties
6. Analyze days on market and price reductions
7. Create conservative, supportable, and aggressive ranges
8. Prepare the seller pricing conversation
9. Roleplay an overpriced seller
10. Prepare a price reduction conversation
11. Analyze buyer offer strategy
12. Turn the CMA into plain English
13. Create local market content from verified data
14. Bring Jeremy into financing strategy when relevant

The agent makes the final pricing recommendation.

# CMA and Market Analysis Assistant Student Handout

## Course checklist

---

1. Build the subject property profile
2. Rank comps by relevance
3. Treat price per square foot as one data point
4. Separate sold, pending, active, and expired properties
5. Analyze days on market and reductions
6. Create a range rather than one magical number
7. Prepare seller and buyer conversations
8. Separate facts from professional judgment

## Important boundaries

---

1. Never invent property or market data
2. Active list price is not proven market value
3. The agent makes the final pricing recommendation

## Fast prompt index

---

1. Subject Property Profile
2. Rank the comps
3. Price per square foot analysis
4. Market status analysis
5. Time and reduction analysis
6. Pricing ranges
7. Seller talking points
8. Overpriced seller roleplay
9. Competing agent roleplay

10. Updated listing review
11. Buyer offer analysis
12. Plain English explanation
13. Content ideas from analysis
14. Analyze market data
15. Create market content
16. Financing opportunity review
17. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Credit Boost Assistant Student Handout

## Course checklist

---

1. Stay within the Realtor's role
2. Ask questions before giving guidance
3. Use the Credit Boost Expert when appropriate
4. Build a Mortgage Readiness Plan
5. Keep the relationship active
6. Bring Jeremy into mortgage specific decisions

## Important boundaries

---

1. Do not promise score increases or approval
2. Do not tell consumers to dispute accurate information
3. Do not request sensitive identifiers
4. Do not tell buyers to make random credit moves before mortgage review

## Fast prompt index

---

1. Credit role boundaries
2. Credit conversation questions
3. Credit Assistant routing
4. Plain English credit factors
5. Buyer warning message
6. Mortgage Readiness Plan
7. Credit myths
8. Content ideas
9. Short Reel
10. Six month nurture
11. Credit challenged buyer roleplay

12. Buyer consultation preparation

13. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

### IMPORTANT

Educational material only. Not credit repair, legal, or mortgage approval advice.

# Credit Conversation Cheat Sheet

## Do

---

1. Educate generally.
2. Ask good questions.
3. Help organize information.
4. Build a Mortgage Readiness Plan.
5. Maintain the relationship.
6. Bring Jeremy into mortgage specific strategy.

## Do not

---

1. Promise a score increase.
2. Promise mortgage approval.
3. Diagnose a credit report.
4. Tell the consumer to dispute accurate information.
5. Request sensitive identifiers.
6. Tell the buyer to make random credit moves before mortgage review.

## Core workflows

---

1. Understand the buyer's situation
2. Route to the Credit Boost Expert
3. Explain credit factors simply
4. Build a Mortgage Readiness Plan
5. Create a nurture campaign
6. Create educational content

7. Roleplay the conversation

8. Prepare the buyer consultation

**IMPORTANT**

Educational material only. Not credit repair, legal, or mortgage approval advice.

# Bookkeeping and Self Employed Buyer Cheat Sheet

## Agent business

---

1. Organize income and expenses
2. Find recurring subscriptions
3. Review business performance
4. Compare spending with the business plan
5. Prepare for the accountant

## Self employed buyers

---

1. Ask general business and documentation questions
2. Do not calculate qualifying income
3. Do not tell the buyer how to file taxes
4. Create a general organization checklist
5. Refer mortgage qualification to Jeremy

## Boundary

---

AI helps organize information.

The accountant handles tax advice.

The mortgage professional handles mortgage qualification.

# Bookkeeping and Self Employed Clients

## Student Handout

### Course checklist

---

1. Organize business income and expenses
2. Review recurring subscriptions
3. Compare spending with the business plan
4. Prepare for the accountant
5. Understand self employed buyer questions
6. Build a general document organization checklist
7. Bring Jeremy into mortgage qualification

### Important boundaries

---

1. Do not provide tax advice
2. Do not determine deductibility
3. Do not tell borrowers how to file taxes
4. Do not calculate mortgage qualifying income

### Fast prompt index

---

1. Bookkeeping categories
2. Transaction categorization
3. Subscription review
4. Business performance summary
5. Spending alignment review
6. Accountant meeting checklist
7. Self employed buyer questions
8. Business revenue versus qualifying income
9. Organization checklist

- 10. Alternative options explanation
- 11. Content ideas
- 12. Short Reel
- 13. Bookkeeping routing
- 14. Monthly review
- 15. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Real Estate Investor AI Cheat Sheet

1. Build the investor buy box
2. Analyze a rental property
3. Compare multiple properties
4. Calculate estimated cash flow
5. Label assumptions
6. Stress test the deal
7. Prepare the first time investor consultation
8. Create a past client investor campaign
9. Explore home equity questions carefully
10. Create investor content
11. Review a portfolio
12. Prepare financing questions for Jeremy

## Boundaries

---

Do not promise returns.

Do not invent rent, expenses, appreciation, or financing.

Do not recommend borrowing against a primary residence without professional review.

# Real Estate Investor Master Student Handout

## Course checklist

---

1. Build the investor buy box
2. Analyze the full property expenses
3. Separate property and financing performance
4. Compare multiple properties
5. Stress test assumptions
6. Create past client investor campaigns
7. Evaluate equity opportunities carefully
8. Bring Jeremy into financing

## Important boundaries

---

1. Do not promise returns
2. Do not invent rent, expenses, appreciation, or mortgage terms
3. Do not recommend borrowing against a primary residence without professional review

## Fast prompt index

---

1. Investor discovery interview
2. Rental property analysis
3. Property comparison
4. First investment explanation
5. DSCR explanation
6. Past client investor campaign
7. Home equity conversation
8. Cash flow estimate
9. Stress test
10. First time investor roleplay

- 11. Investor content ideas
- 12. Listing investment screen
- 13. Portfolio organization
- 14. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

# Bonus Tax Preparation Side Hustle Student Handout

## Course checklist

---

1. Verify current IRS requirements
2. Obtain a PTIN before paid preparation when required
3. Review AFSP and Enrolled Agent paths
4. Review EFIN and electronic filing requirements
5. Create a Written Information Security Plan
6. Use secure tax software and document systems
7. Define the returns the business will accept
8. Get professional review when the issue exceeds competence

## Important boundaries

---

1. This course is educational, not tax, legal, accounting, or licensing advice
2. Do not store taxpayer data in ordinary AI Projects
3. Do not invent credentials, deductions, tax positions, or refunds
4. Verify state and local requirements

## Fast prompt index

---

1. Current IRS research
2. Required disclosure
3. PTIN preparation checklist
4. Compare the paths
5. PTIN versus EFIN
6. WISP preparation
7. AI security rules
8. Tax business planning interview

- 9. Niche selection
- 10. Tax client intake workflow
- 11. Bookkeeping Assistant routing
- 12. Missing document messages
- 13. Ethical relationship plan
- 14. Investor tax marketing
- 15. Compliant conversation starters
- 16. Ninety day launch plan
- 17. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

### IMPORTANT

Educational material only. Not legal, tax, accounting, cybersecurity, licensing, or regulatory advice. Verify current IRS, state, and local requirements before offering paid services.

# Tax Preparation Side Hustle Launch Checklist

## Important

---

Paid federal tax preparers generally need a current PTIN.

The Annual Filing Season Program is voluntary.

Electronic filing requirements and an EFIN may apply depending on the operation.

Tax professionals handling taxpayer data need an appropriate security program and Written Information Security Plan.

Verify current federal, state, and local requirements before offering paid services.

## Checklist

---

1. PTIN researched and obtained before paid preparation when required
2. State and local requirements verified
3. Business structure reviewed
4. Tax preparation education completed
5. Annual Filing Season Program considered
6. Enrolled Agent path considered for future growth
7. Electronic filing and EFIN requirements reviewed
8. Tax software selected
9. Secure client portal selected
10. Written Information Security Plan created
11. Data breach response plan created
12. Professional insurance considered
13. Client engagement documents reviewed
14. Secure intake workflow created
15. Pricing established

- 16. Scope of accepted returns established
- 17. Referral and escalation rules established
- 18. Marketing plan created
- 19. Real estate cross referral rules established
- 20. AI security rules configured
- 21. No confidential taxpayer data stored in ordinary AI Projects

## Disclosure

---

This is educational material and not legal, tax, accounting, cybersecurity, licensing, or regulatory advice.

### IMPORTANT

Educational material only. Not legal, tax, accounting, cybersecurity, licensing, or regulatory advice. Verify current IRS, state, and local requirements before offering paid services.

# Bonus Credit Services Side Hustle Student Handout

## Course checklist

---

1. Review current federal CROA requirements
2. Review Florida Credit Service Organization requirements
3. Have contracts, disclosures, advertising, and billing reviewed
4. Use secure systems for consumer data
5. Document completed services
6. Build the business around education and legitimate consumer rights
7. Connect mortgage ready consumers with Jeremy

## Important boundaries

---

1. This course is educational, not legal advice
2. Do not charge advance fees contrary to applicable law
3. Do not promise score increases or deletion of accurate information
4. Do not create false disputes, identities, or documents
5. Verify every state where services will be offered

## Fast prompt index

---

1. Federal research
2. Required Florida disclosure
3. Florida law research
4. Credit services guardrail
5. Attorney review checklist
6. Pricing models for legal review
7. Credit client intake
8. AI privacy rules

9. Credit Boost routing
10. Redacted credit review
11. Credit action plan
12. Mortgage readiness follow up
13. Twelve month relationship campaign
14. Ninety day marketing plan
15. Consumer workshop
16. Referral partner categories
17. Credit services business plan
18. Project instruction

## Full prompts

---

The complete copy ready prompts are included in the matching **Prompts.md** file and student Project.

### IMPORTANT

Educational material only. Not legal or regulatory advice. Have your business model, contracts, disclosures, billing practices, and advertising reviewed by a qualified attorney before providing paid credit services.

# Credit Services Side Hustle Launch Checklist

## Important

---

Credit repair and covered credit services are regulated.

Federal law includes disclosure, contract, cancellation, advertising, and advance payment requirements.

Florida has additional written disclosure, contract, five day cancellation, record retention, bond, trust account, penalty, and consumer remedy provisions.

Obtain qualified legal review before accepting paid clients.

## Checklist

---

1. Federal CROA reviewed
2. Florida Credit Service Organization law reviewed
3. Every other applicable state reviewed
4. Attorney consulted
5. Consumer disclosure reviewed
6. Service agreement reviewed
7. Cancellation notice reviewed
8. Five day Florida cancellation requirement incorporated when applicable
9. Billing model reviewed
10. Advance payment restrictions understood
11. Telemarketing rules reviewed when applicable
12. Privacy procedures created
13. Secure consumer document system selected
14. Credit report workflow created
15. AI privacy rules established

16. Marketing claims reviewed
17. Complaint process created
18. Record retention requirements established
19. Credit Boost Assistant configured
20. Mortgage partner workflow configured
21. Business plan completed

## Never

---

1. Promise a score increase
2. Promise deletion of accurate negative information
3. Create false disputes
4. Create false identity theft claims
5. Recommend CPNs
6. Create false documents
7. Misrepresent credentials
8. Store sensitive consumer identifiers in ordinary AI Projects

### IMPORTANT

Educational material only. Not legal or regulatory advice. Have your business model, contracts, disclosures, billing practices, and advertising reviewed by a qualified attorney before providing paid credit services.

# AI Advantage Elite Preview Student Handout

## Course checklist

---

1. Lead generation systems
2. AI websites
3. Custom assistants
4. AI CRM intelligence
5. Voice assistants
6. HeyGen video systems
7. Referral partner workshops
8. Advanced agents, skills, connectors, and MCP

## Important boundaries

---

1. Do not build a new platform when an existing system solves the problem
2. Keep live CRM and business data in authoritative systems
3. Require human review for customer facing or high impact actions

## Fast prompt index
